No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 Sequence 372, 1

No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

3 JP 2002508976-A/5.

8 synthetic construct
synthetic construct
other sequences, artificial sequences.

1 (bases 1 to 7546)

2 Radosevich, T.J. and Jr.C.J.L.

Expression system of nucleotide with reduced immunogenicity for use in gene therapy
In gene therapy
Patent: JP 2002508976-A 5 26-MAR-2002;
HUMAN GENE THERAPY RESEARCH INSTITUTE
OS Artificial Sequence
